

Question: How do I watch & play CCTV on a phone?

Answer: It's easy with the RoomWatch WiFi camera and the latest Zip Pro app for your mobile phone.

You will need:

RoomWatch™ Camera (Order Code: SEE040), a Micro SD card, a 12V DC PSU or a PoE network connection & cable for power, your Mobile Phone with the latest Zip PRO Mobile Phone App installed (See QR code links below).

Android App

ANDROID
Released Oct 2020

iOS App

iOS
Released Oct 2020

1 Setup your RoomWatch camera looking at the area you wish to view/record, it will need powering from a suitable 12V DC PSU (such as POW151) or connecting up using an RJ45 patch lead (such as NET905W) to a PoE network.

2 To record you will need to install a formatted Micro SD card into the slot in the RoomWatch camera.

3 Download the latest Zip PRO app to your phone (Android or iOS).

4 Open the app and go to add the RoomWatch under the Device Manager menu. To do this simply scan the mini QR code on the base of your camera and connect your phone.

5 To record the camera image simply select the icon at the bottom of the app screen. You can view your completed recordings by inputting the time and date into the calendar screen.

6 Extra features include Siren activation, white light LED activation and 2-way talkback activated using the icons on screen.
