

## Question: How can I transmit 3 CCTV video signals one way and 1 video signal the other way down 1 CO-AX cable?

**Answer:** In addition to transmitting signals one way down an RG59, the Mule4 can also transmit a CCTV video signal in reverse.

Transmit a video signal in reverse from one building to another, using existing cable.

CCTV Mule™

3 Video signals in one direction,  
1 Video signal in the opposite direction.

CCTV Mule 4  
Product Code: MULE004

In addition to transmitting signals one way down an RG59, the Mule4 can also transmit a CCTV video signal in reverse.

This great feature is an added bonus where wirefree is not an option due to site conditions such as trees and other obstacles in the way. This is especially useful if you don't have access to run any more cables.

This CCTV installation tip is aimed at helping you to install CCTV equipment. If you are looking for answers on "how to fit CCTV" or perhaps "how to network a DVR or NVR" or even "how to get CCTV on your mobile phone" why not check out our full range of CCTV installation tips at: [www.systemq.com](http://www.systemq.com)
