## Question: How can I watch CCTV images on my mobile?

**Answer:** Download the Alien DVR app for IOS or Android to watch CCTV images on your smartphone or tablet.

**Live Real-time Viewing**  
See live CCTV images on your mobile phone and view up to 16 channels or even single channel fullscreen.

**Local Playback**  
Recorded images can be played back through the App for easy viewing and storing.

**Customise Channels**  
Alter frame rates, resolution etc to improve viewing performance.

**Password Protection**  
Control who can access/log into your App on your mobile phone for extra security.

**PTZ Control**  
Use your mobile to call your PTZ into performing zoom, pan & tilt, call presets and set presets.

**Image Capture**  
Take a snapshot of a live feed and store on your mobile phone.

**Bookmarks/Favourites**  
Store your favourite camera channels and camera layout for faster access and setup.

**Alarm Output Control**  
Switch up to 4 relays on or off.

**Picture Quality**  
During live viewing you can adjust the picture quality from low, medium to high as well as controlling brightness.

App  
V4.01

## Step by step

- 1 Install the Alien DVR app on your smart phone**  
(You must have an appropriate QR barcode scanner app installed to do this)

### Android

Scan the QR code to download the App and install it.  
(or go to [www.aliendvr.com](http://www.aliendvr.com))

### iPhone/iPad

Scan the QR code to download the App from the iTunes store.

**Note:** Android requires v5.0 (lollipop) and allowing installation from unknown sources; Alien DVR app now supports IOS 8

This CCTV installation tip is aimed at helping you to install CCTV equipment. Once installed, launch the app on your phone & follow these steps...

2

Register your username & password and choose "Devices" from the menu tab

3

Press the "Add" icon in the top bar

4

Fill in all the details for your selected DVR the press the "Save" icon

5

Return to the "Devices" list and the new DVR will be displayed

6

Select your DVR and then select "Start Realtime" to display the quad screen view. The quad screen allows visuals for up to 4 cameras.

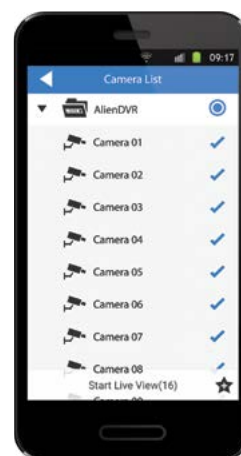

7

Double tap a channel to view it full screen. Pressing the camera list icon allows you to choose which cameras are displayed.

8

Select the saved DVR (device) you wish to view to reveal the camera channel list

9

Select or de-select the cameras required and then press "Start Realtime"

+

You can also take snapshots and recordings of real-time images and store them on your mobile phone and even control PTZ cameras!

Available for use on all the alienDVR range
