

Question: How can I connect to a twisted pair or 4 core alarm cable?

Answer: The CON380 BNC PLUG TO T-STRIP is a useful terminal strip to BNC converter which allows you to easily wire a BNC plug onto multi-core cable.

When cabling CCTV equipment with twisted pair or 4 core alarm cable you don't necessarily have to use video baluns. On shorter cable runs of up to 10m our Zulug™ CON380's are a great alternative.

The CON380 is a useful terminal strip to BNC converter which allows you to easily wire a BNC plug onto multi-core cable.

Ideal for smaller residential and commercial installs, the CON380 could save you a fair amount of money by removing the added expense of video baluns.

CON380 - T-Strip To BNC Plug

T-Strip
To BNC

| Product Code | Pack Size |
|--------------|-----------|
| CON380 | 1 |
| CON382 | 100 |

Great alongside our CON370 T-strip to DC plug and CON371 T-strip to DC socket adapters

Application Example
