

ZENDit™

Transmit up to 200 metres Over CAT5!

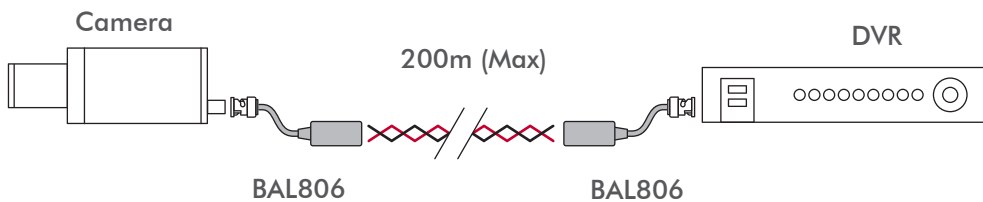

Pair of 1ch pigtail passive baluns for transmitting footage up 200m over CAT5.

The BAL806s can be used to transmit HD-TVI, HD-CVI, AHD & analogue images.

The innovative 'Snap' together design allows multiple baluns to be connected to one and other forming 1 block for a neat installation. The pigtail design enables you to connect a balun to each channel of the DVR and then create 1 block for easier CAT5 termination. Connecting the baluns in this way also saves time in the future as you will have an organised installation rather than mass of wires.

The BAL806s feature a pigtail BNC plug for connecting to a DVR or cameras, spring clamp terminals for quickly connecting a twisted pair and transient suppression.

Example

Features

- BN Connection
- Compact
- 'Snap' Together Design
- Use With TVI Or Analogue
- Spring Clamp Terminals
- Up to 200m Range
- Transient Suppression
- No Power Required

Specification

FUNCTION	SPECIFICATION
Input Connection	BNC Plug (Male)
Output Connection	Spring Clamp Terminals
Max Distance	200m
Power	Passive (Not Required)
Video Bandwidth	60 MHz
Dimensions	55 x 20 x 17mm

Options Available

PART CODE	DESCRIPTION
BAL806	Pigtail Passive Baluns (Pair)
BULK-BAL806	Pigtail Passive Baluns (200 Pairs)

Other Products To Consider

Mini Passive Baluns (Pair)
BAL105
