## Video, Power & Data - 3 in 1 Design!

Our AntiHum PTZ Combo cable allows you to send power, data and a video signal down just the one cable. Perfect for PTZ installations!

Using 1 cable for all 3 functions saves installation time, material costs, running out and fixing only one cable instead of three!

We also manufacture it with an extra tough outer sheath and it's often used on building sites because of this.

## What Makes Our PTZ Combo Cable Such Good Value?

Three cables in one, saves time and money!

Glued foil sheath provides maximum protection against interference and prevents "loose" foil shorting to the centre pin.

0.7mm solid Copper centre core for maximum performance and long runs.

Round Style 11mm Diameter.

0.5mm Copper data core with shield for PTZ control.

0.15mm x 30 Copper power cores, extra CSA for powering PTZ cameras.

## Did You Know?

Our anti-hum co-ax cables have a solid copper core for maximum conductivity, they're not inferior copper coated cores (CCS or CCA) like other brands.

For more information on the benefits of solid copper cores over copper coated see online tip 302 ▶▶▶

## Features

- Low Loss - 2.5dB Per 100m
- Solid Copper Core For Long Runs
- Three In One Saves Time & Money!
- Easily Separated For Fast Install
- Available On Pallets

## Other Products To Consider

Black AntiHum  
RG59+2 100m  
CAB050

100 x 3pc BNC  
Crimps  
CON430

## The Expert's Advice...

"Don't risk buying cheap cable in an attempt to save money as it may actually be half the quality. For quality and value stick to AntiHum branded cable."
