

The compact size of the CCT216 2 way video distributor means it can be located easily behind a camera, monitor or DVR to provide two video outputs. These can be input to additional equipment such as extra monitors. The units draws 12V DC at 100mA and a PSU is supplied free.

**Features**

The CCT216 is a 12 volt DC video distributor taking one video input and providing two video outputs. The unit must be connected to a 12v DC regulated power supply. The power on LED will light when power is applied. The video distributor can be connected to video cameras, multiplexors, VCRs and DVRs etc. The unit incorporates a wide bandwidth with video gain compensation amplification. An additional feature allows the connection of additional distributor of the same type by using the power connection link supplied. The second unit then requires no additional PSU and up to four additional units can be added in this way.

CCT216	Technical Specifications
Video Input Channel	1 Channel BNC
Video Output Channels	2 Channels BNC
Video Input Level	0.8 ~ 1.2V p-p, 75 ohms
Video Output Level	1V p-p (Standard), 75 ohms
Video Bandwidth	10Hz – 10MHz
Power Supply	12V DC - 500 mA
Power Consumption	100mA
Dimensions (mm)	72.7 x 42.2 x 46
Weight	65g

Troubleshooting

No Video Signal

1. Check power LED is lit. If not check power supply.
2. If connecting equipment such as quads, multiplexors, VCRs or DVRs these may reduce signal strength.
3. Avoid transmission distances in excess of 50 metres which may cause video signal degradation.
