

The compact size of the CCT220 4 way video distributor means it can be located easily behind a camera, monitor or DVR to provide 4 extra video outputs. These can be input to additional equipment such as extra monitors. The units draws 12V DC at 60mA and a free 12vDC 500mA power supply is provided.

**Features**

The CCT220 is a dual voltage distributor (12vDC or 24vAC) taking one video input and providing four video outputs. The unit if connected to 12v DC must be a regulated power supply. The power on LED will light when power is applied. The video distributor can be connected to video cameras, multiplexors, VCRs and DVRs etc. The unit incorporates a wide bandwidth with video gain compensation amplification.

CCT220	Technical Specifications	
Video Input Channel	1 Channel BNC	
Video Output Channels	4 Channels BNC	
Video Input Level	0.8 ~ 1.2V p-p, 75 ohms	
Video Output Level	1V p-p (Standard), 75 ohms	
Video Bandwidth	10Hz – 10MHz	
Power Supply	12V DC	24vAC
Power Connection	2.1 DC Jack	Terminal Bar
Power Consumption	60mA	100mA
Dimensions (mm)	138 x 84 x 28mm	
Weight	130g	

Troubleshooting

No Video Signal

1. Check power LED is lit. If not check power supply.
2. If connecting equipment such as quads, multiplexors, VCRs or DVRs these may reduce signal strength.
3. Avoid transmission distances in excess of 50 metres which may cause video signal degradation.
