

## Industrial Standard Hard Drive, Great for Continuous 24/7 Use!

Reliable, high quality SATA Hard Drives in a range of storage capacities suitable for DVR/CCTV recordings. These 3.5" hard drives will fit into any of our Alien DVRs.

Over time you may find your hard drive fills up fast, especially after adding extra cameras. Installing an additional SATA hard drive is an easy way to add extra storage to your DVR.

### How To Install

#### 1 Connecting The Power Cable

Connect the power cable to the power socket on the hard drive. Connect the other end (White plug) to the power socket on the PCB.

#### 2 Connecting The SATA Cable

Now connect the SATA cable to the SATA socket on the hard drive. Connect the other end to the SATA socket on the PCB.

#### 3 Mounting The Hard Drive

Screw through the four holes in the base of the DVR, and into the four fixing holes in the bottom of the hard drive. (Screws supplied with hard drive.)

For a complete guide on installing SATA hard drives see online tip 301 ▶▶▶

### Features

- Range Of Drive Sizes
- Serial ATA Interface

### Specification

FUNCTION	SPECIFICATION

Drive Interface	Serial ATA
Dimensions	145mm x 100mm x 23mm

### Options Available

PART CODE	DESCRIPTION
HDD500	500GB SATA HDD
HDD1000	1TB SATA HDD
HDD2000	2TB SATA HDD
HDD3000	3TB SATA HDD
HDD4000	4TB SATA HDD
HDD6000	6TB SATA HDD

### The Expert's Advice...

"Make sure you check the maximum hard drive size your DVR can take. For example, your DVR's maximum capacity may be 4GB but the maximum drive size it can recognise may be 2GB. In this case a single 4GB hard drive would not work, but two 2GB hard drives would."
