Warn And Deter With Our CCTV Window Stickers

These CCTV window stickers are made from flexible vinyl that resists tearing and ripping. Both designs have adhesive on the face and is intended for use on the inside of a glass pane, ie, in a shop window or door looking out.

How To Comply With The Data Protection Act

Just a few months after the Data Protection Act actually came into force, it became apparent that clearer guidelines were necessary to help CCTV system owners to run and manage their data storage more appropriately. For this reason, a CCTV Code of Practice was written by the Data Protection Commissioner as a guide to good practice for CCTV users. For a CCTV system owner, the Act essentially means that:

- ✓ They must register their CCTV system with the Information Commissioner.
- ✓ They must only take footage that is relevant to their property and it's security.
- ✓ They should not keep footage longer than it is necessary for a crime to come to light.
- ✓ They should warn individuals when they are in a monitored area.
- ✓ They should allow access to the footage to anyone who believes that they have been captured on one of the cameras.
- ✓ They should store captured footage securely so that access to it is strictly monitored.

For advice on how to comply with the Data Protection Act see online tip 261 ▶▶▶
