

ZipFinder is a programme which runs on Windows.

To search for the RoomWatch camera this software needs to be installed and also configured on you Windows PC.

If you have installed ZipFinder and are struggling to connect to the RoomWatch then follow the steps below:

1. Search on Windows “Allow an app through Windows Firewall”

2. Select "Change Settings"

n and Security > Windows Defender Firewall > Allowed applications

Allow apps to communicate through Windows Defender Firewall
To add, change or remove allowed apps and ports, click Change settings.

What are the risks of allowing an app to communicate? [Change settings](#)

Allowed apps and features:

| Name | Domain | Private | Public |
