Punch Down Tool

To cut and insert cables into telephone accessories. Spring-loaded impact with high and low settings, cable locking and insertion blades and built-in cable shears.

Code	Description
TOO840	Punch Down Tool

Use With

CAT5/6 Joint Box

An IP CAT5/6 joint box can be used to join two cable ends together. It's much faster than crimping the ends and you can cut the cable shorter maximising system performance! Great when threading cables through small holes

and re-joining where convenient.
