

Affordable Quality Wall-Mount PSUs 12V DC or 24V AC

... housed in a tough lockable metal case

Ideal for commercial installers, these wall-mount power supplies are housed in a tough metal case with a key lock to prevent unauthorised access. Individually fused up to 1A per port or this can be replaced to achieve the maximum output from 1 port.

SPECIFICATION

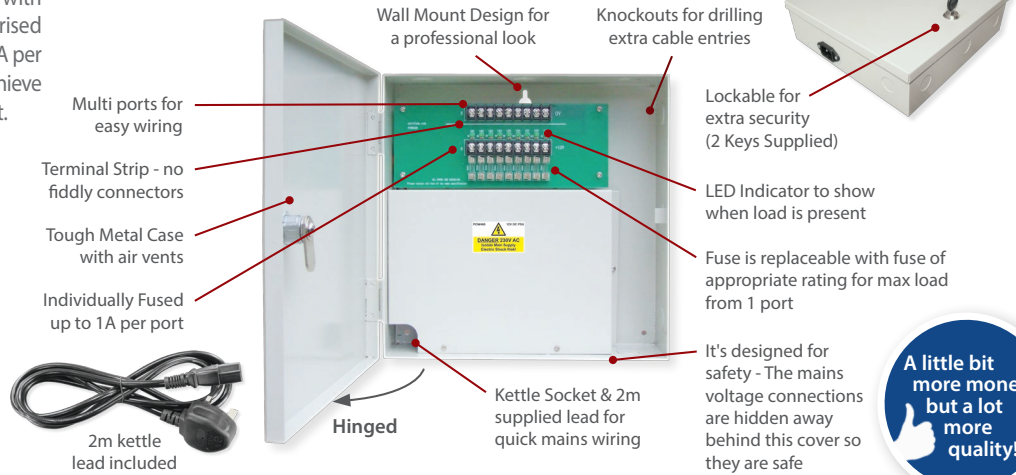

POW400

5 Amp 12V DC
9 Ports (T. Strip)
Fused 1A
240V AC Input (Kettle Lead)
Load Indicator LEDs
2 Keys Supplied
H250 x W250 x D70mm

SPECIFICATION

POW500

6 Amp 24V AC
6 Ports (T. Strip)
Fused 1A
240V AC Input (Kettle Lead)
Load Indicator LEDs
2 Keys Supplied
H250 x W250 x D92mm

A little bit more money but a lot more quality!

| Code | Description |
|--------|------------------------------|
| POW400 | 5-Amp 12V DC PSU - 9 outputs |
| POW500 | 6-Amp 24V AC PSU - 6 outputs |

This PSU has an LED display that will give you a live reading of your output load and voltage!

POW570

Dimensions: H67 x W300 x D236mm (excluding brackets)

How it works: The 240V AC input is converted to multiple 12V DC outputs (9 or 17) with a total current output of 10 or 20 Amps, depending on the model.

The 9 channel model has 8 ports fused at 2A each plus 1 port fused at 4A and can supply a total load of 10A. The 17 channel model has 16 ports fused at 2A each and also the extra 4A port, and can supply a total load of 20A.

The green LED lights show that your channels are working. If a channel is overloaded the green light goes out. But a clever PTC self-resetting fuse, on each port, prevents full system overload by disconnecting only the overloaded channel.

Once the load is removed, the fuse resets and the port becomes immediately usable again.

Professional Rack-Mount PSUs with Real Time LED Readings

... no more guessing output loads and voltage!

- ✓ 9 or 17 Channels Fused at 2A
- ✓ Plus 1 Additional 4A Output that is Ideal for DVRs
- ✓ PTC Self-Resetting Fuses Prevent Overload
- ✓ Green LEDs That Tell your Ports are Working

FREE 19" rack mounting brackets & power lead

Handy Additional 4A Output Ideal for DVRs

SPECIFICATION

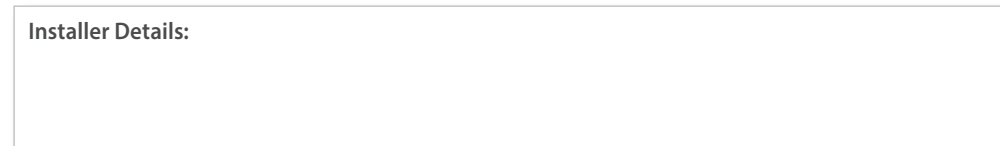

1.5U Rack Mount Case
240V AC input
UK 3-Pin Plug Mains Connection
12V DC PSU
Terminal Strip Connections
2A Max Per Channel
4A Aux Output
Material: Metal Cased

Options

10A Output and 9 Channels - POW570
20A Output and 17 Channels - POW572

| Code | Description |
|--------|----------------------------|
| POW570 | 12V DC Rack Mount 9Ch 10A |
| POW572 | 12V DC Rack Mount 17Ch 20A |
