- ✓ TVI, CVI, AHD or Analogue Output
- ✓ 4K (2MP and 5MP also available)
- ✓ 2x High power IR LEDs Up to 60m range
- ✓ Weatherproof for in & outdoor use
- ✓ Extra Bases, Wall & Ceiling Brackets Available

Description

Long range IR reach of up to 60M and a 2.8-12mm varifocal lens make this a great choice for covering larger areas with CCTV. Use it on a 12mm setting to capture vehicles entering a gateway even in low light when the high powered IR beam kicks into action. The motorised lens option can even make use of an alarm trigger such as a break beam to capture this and automatically email it to you.

The mechanical day-night filter retracts at night to let the camera see to its best levels whilst it moves back during the day to give great colour reproduction that isn't overwhelmed by the IR rays of the sun.

4K Resolution - Also described as 8MP offers superb quality images that's ideal if your footage might end up in court as evidence. Good choice if you're fitting a 4K DVR such as the new Zip Xtreme DVR.
