- ✓ 3.6mm for wide angle view
- ✓ Case matches IP-CAM800B
- ✓ Black panel hides LED array
- ✓ 4K Ultra HD
- ✓ 30M IR Range
- ✓ In gloss black

Description

This mini eyeball measure just 90mm wide but is a great base camera for any CCTV system featuring 4-in-1 video technology so it is compatible with most CCTV equipment new or old. Set as HD-TVI as the popular default technology, it can also be switched to AHD or the less popular CVI. Handy for upgrades too, it even has an analogue output that could be used on old recorders that still need an upgrade to HD.

The SEE818 is a great compact design, ideal when you're looking for your CCTV system to be more low key.

The discrete black panel nicely disguises the IR LED array on the camera giving it a different but attractive look that would suit in any retail environment.

The gloss black finish is great for more commercial applications too where it won't show everyday wear and tear, the case design makes fitting the camera easy.

If you're looking to mix and match your system with IP cameras, the IP-CAM800B shares the same sleek case design.

Specification

Image Sensor	4K CMOS
Video Compression	H264
Resolution	4K 25fps
Lens Type	3.6mm Fixed
Image Output	1 Volt Peak-Peak 75 ohm
Min.Illumination	0 Lux with LEDs on
Day/Night	Mechanical (True Day-Night)
InfraRed LEDs	x18
IR Range	30m
Input Voltage	12V DC
Current Consumption	300mA (IR On)
IP Rating	IP68
Signal to Noise Ratio	More than 50dB
Video Connection	BNC Socket
Power Connection	2.1mm DC Socket
WDR	Digital Wide Dynamic Range
Noise Reduction	DNR
Finish	Gloss Black
Build	Metal Case
Operating Temperature	-10°C ~ +50°C
IR Wavelength	850nm
Dimensions	Dia. 90mm x (H) 85mm
